

Slide Show At Any Venue

More and more people are finding that the playing of a slide show at a funeral, capturing times that have passed by, is a fitting tribute to someone they have loved and cared for.

Sometimes we forget that someone was once young, active and so on and different people who attend the funeral had come into that person's life at different stages and might not have known the young and adventurous person - that's where a slide show can help reflect this.

We offer portable equipment enabling us to provide a slide show at any venue.

We can even film the service as a keepsake to be able to be viewed at another time or for someone who is not able to attend the funeral on the day.
